Nick,  
Thank you for the detail. We have forwarded the information to CVS. They have already asked their LP department to review.

Have a great day!  
Jen

Jennifer,

We have not restricted the account from purchasing controlled substances while being reviewed by CVS. The order accrual just reset to zero on the first of the month and the store can order their normal amount to service existing customers. With that said, we did not increase the threshold limit last month and orders will be held if their ordered quantity for this month surpasses the existing limit.

Thanks.

Michael,  
We have CVS researching the history on this store. We are not holding any orders pending this review, are we?

Michael,  
Do we have a store number, account number or DEA number on this location? I know they have sent me several stores to pull sales on lately. I would like to see if it may be a store they are already investigating.

Thank you!

Jennifer:

I think it appropriate to inform CVS loss prevention to investigate the utilization of oxycodone at the CVS on 850 W Sample Rd in Pompano Beach Florida. The utilization of oxycodone products does appear to vary with a greater range of variance than that which would be normal.

Thanks in advance

Michael
